Subject: Safety posters and booklets

Dear Coordinators,

The "Chemical Laboratory Safety guidelines " posters, reviewed by the lab coordinators group and approved by the Institutional chemical Safety committee(ICSC), are ready for distribution to all the labs. If affixed to the wall, they will serve as a quick reminder to lab personnel for safety procedures in the labs, when using hazardous chemicals. It is to be used in conjunction with the Lab Safety Manual. Please let me know how many posters (12 by 22 inches), you would like for your department. We will deliver them to your mail boxes.

Furthermore, I have ordered the newest version of "Safety in Academic Chemistry laboratories vol 2, Accident prevention for faculty and administrators, 7th edition booklets. Let me know how many copies you would like for all your PIs, and /or lab managers, including one for yourself.

As always, thank you so much for all your help. Enjoy beautiful Autumn season (albeit a bit wet) YM
